A Microsoft Office Add-In for quickly extracting email addresses from MS Word documents. A port of SMRPG (aka UnBan3D), a x64 Microsoft x86 emulator, to MFC-based C++, run-time configuration, 64-bit compiler support, and other improvements. External links Category:Discontinued Microsoft software Category:Borland software Category:Text editorsThe Scream What once was a girl, murdered and torn to pieces on the rocks of a cliff, who reveals her secrets to us, and in doing so, allows us to have a deeper understanding of ourselves. There are two different answers to the question, "What is The Scream?" On one hand, the answer is simply, "I don't know," and on the other, it could be something like this: "The Scream is a metaphoric expression of the ultimate fear we face as human beings." Perhaps that's too simple, or too obvious. If there is only one answer, it would have to be this one: "The Scream is the embodiment of the true nature of humanity." That answer, to me, sums up everything.Scissor Sisters call on fans to refuse to buy original rock'n'roll concert DVD They may be breaking the law – but British fans of The Libertines and The Libertines may be glad they are. Following in the footsteps of their US counterparts, who have been joined by fans of earlier rock bands in their illegal gesture of resistance against piracy, the Scissor Sisters have announced their own call for
