Harvest Seasons - Harvest Bundle is a farming strategy sandbox game for 1 - 3 players. Fight over the land you need to grow the most food! Play More Harvest Seasons Games Meet Our Devs: Check out our devs' twitter! Follow Harvest Seasons Games: On twitter! On Facebook! Join our Discord! On discord! Comments, Feedbacks, Ideas, And General Fun is more than welcome. Hope you enjoy! Each resource has its own predefined tile size, which means that you can change the size of the farm from its base. For instance, if you want to make your wheat farm bigger, you just need to change the size of its tile, and increase the number of workers you allocate to get more wheat. This means that resources will yield according to their maximum size. For instance, if you want to make a fishing farm bigger, you just need to increase the size of its tile, and the amount of fish you'll get. Therefore, it is important to pick the right resources for the size of your farm. Also, you can simply buy a copy of the game instead of buying the game and all the changes you want to make, but that's not what we recommend. You'll need to learn how to do it all by yourself. As you will see, the most prominent thing is that you can harvest as many tiles and resources as you want. It is common knowledge that it is really hard to keep harvesters happy and to keep the machine running, but Harvest Seasons gives you the opportunity to harvest as many tiles as you want, and resource production will go smoothly. Harvest Seasons has been updated in December 2016. As Harvest Seasons is a sandbox game, every player can place and produce farms on his own land. Then, let's see how much you can harvest with the new content! Well, that's all! I hope you will enjoy Harvest Seasons - Harvest Bundle!
