From steam to electric, diesel to light rail, diesel to a rocket motor, steam to an old fashioned coal rail, passenger to freight, goods to passenger, goods to goods, goods to coal, you name it. You can find more information about the included locomotive models at the following Steam Loco's website: This pack includes: Pack Contents: (22) Steam Loco's For those interested, a user manual covering how to use the.cfg files and their various options is included with the package as standard. The gunman who killed a police officer and six others in a mass shooting in El Paso, Texas, on Saturday allegedly expressed hatred of Mexicans and immigrants to his friends and family, according to a report in The New York Times. The shooter's suspected motivations and ideology in the attack—targeting a community that is home to both a largely Mexican immigrant population and a large number of US military veterans who served in Iraq and Afghanistan—have drawn controversy. The El Paso Police Department did not indicate on Saturday that the shooter had posted a manifesto online. Zero Point in the south bank of the river, that is along the 3rd manastir under Dvino je na jeprom, above Krojača, on is wierd looking space next to a steel bridge, Nizottef lake. It is called Zero Point Zero Point and No Name, but I've seen it signs "deconstruction object, an object of complete waste, a " Nice spot, enjoy. Yes, it still exists, no one has bothered with it since the 80's, when Kappellmann made her show in Prague. It was taken over by a company headed by a guy called Volker, a German who opened a disco near the south bank of the Vltava (the side where the bus station is and the direction we're driving) on a barely not as ugly square called 'Prague 21'. Two years later, when Nizotte's show came around, he opened his concert on that site, too, with the only difference that he put a little (bizarre) stage on top, and just one huge mirror to transfigure the space into a theater. Nizotte used it a year later for his concert with Sledgehammer. His name is still written on it nowadays, but it's of no use since those walls don't hold anymore. Luckily for you (and me for that matter), a movie called "Land of Plenty" came out last year, making fun of this show. Cool film. hey guys,does anyone know about a sculpture called horizontaal? i have heard that it's something to do with bees, but i don't know what i heard, was it it was right around the 80's maybe? and is it still there? I don't remember it. But I don't know were you may find more info on it. Re: ZERO POINT ZERO POINT in Prague I saw it long time ago as a small shabby house what you find during reconstruction work near the O2 arena. The memories from old San Saba music festival all the way back to the 70's are totally healing to me ;-) Re: ZERO POINT ZERO POINT in Prague I saw it long time ago as a small shabby house what you find during reconstruction work near the O2 arena.
